AARON J. MULL

Glassboro, NJ | U.S. Citizen - Eligible for Security Clearance

aaronmull421@gmail.com | aaronmull.dev

EDUCATION

B.S. in Electrical & Computer Engineering, Minor in Computer Science *Anticipated May 2028*

Rowan University, Henry M. Rowan College of Engineering *Glassboro, NJ*

- GPA: 4.00 / 4.00; President's Scholar of Excellence, Scholar Athlete of Distinction
- Relevant Coursework: Digital Logic, Circuit Analysis, Signals & Systems, Electronics, DSA

EXPERIENCE

C.J. Watson Electrical Contractor *Jun. 2026 - Sep. 2026*

Electrical Project Management Intern *Hammonton, NJ*

- Assisted project manager in reading schematics, designing panel schedules, and obeying electrical codes.
- Utilized Revit to generate mock-ups involving power distribution, lighting systems, and load calculations.

ECE Resource Center, Rowan University *Sep. 2026 - Present*

Student Worker *Glassboro, NJ*

- Calibrating equipment using SCPI / MATLAB, assembling and soldering PCBs, and filling component orders.

PROJECTS

Magnetic Microbots [in progress] *Clinic Project*

- Developing magnetic control system and graphical user interface for iron microbots traveling in liquid.
- Building to the end-goal of deploying the robots within human body to assist in surgeries and drug delivery.

Boba Speed Data Hub (/boba_app) *Full Stack Mobile Development*

- Developed mobile app for 100+ users with React Native, Node.js, PostgreSQL DB, user authentication.
- Consulted with the gym owner to determine proper tech stack and conduct requirement writing/modeling.
- Increased efficiency of data entry and visualization; imported existing data from large Google Sheets file.

Pokédex *Raspberry Pi, ML, Image Recognition*

- Trained and quantized a TensorFlow image recognition model to run on a Raspberry Pi using Python.
- Utilized OpenCV and designed a graphical user interface to detect Pokémon with 90% accuracy.

SKILLS

Programming & OS: Java, JavaScript, C++, C, Python, Verilog, HTML, CSS, SQL, Assembly; Windows, Linux
Software: AutoCAD, MATLAB, KiCAD, SPICE, NI Multisim, Quartus, VS Code, Excel, Microsoft Office Suite
Frameworks & Tools: Git, React, Node, Next.js, OpenCV; Oscilloscope, Power Supply, Signal Generator

CLUBS & EXTRACURRICULARS

Learning Assistant, Rowan University College of Science & Mathematics *Sep. 2026 - Present*

Introductory Mechanics Learning Assistant

- Supporting 40+ students in understanding mechanics via weekly office hours and one-on-one sessions.

Institute of Electrical and Electronic Engineers, Rowan University Branch *Sep. 2025 - Present*

Club Member

- Attended biweekly meetings and presentations by industry personnel about real-world ECE applications.

Robotics and Automation Society, Rowan University *Sep. 2026 - Present*

Club Member

- Attended biweekly meetings and workshops to develop robotics skills and contribute to club projects.

Student Athlete Advisory Committee, Rowan University Athletics *Sep. 2024 - Present*

Men's Track and Field Team Representative

- Relay important information and announcements from the athletic department to my track teammates.
- Volunteer for events and fundraisers hosted by the athletic department and related organizations.
